OVERVIEW

CCI at a Glance

Company Certification International is a certification body accredited by IAR (IAR-112), USA, serving clients across Asia, the Middle East and Europe — with certification, inspection, training and the software that keeps management systems audit-ready.

2014	120+	90+	4	IAR-112
Established	Certificates issued	Companies certified since 2014	Offices — plus 3 affiliate partners	Accreditation (IAR, USA)

Every certificate we issue is independently verifiable online — by your clients, your regulators, and your supply chain.

Who We Are

Company Certification International (CCI) is accredited by IAR (IAR-112), USA, delivering management-system certification, third-party inspection, and professional training.

Operating from Dallas, London, Muscat and Karachi — with affiliate partners in Canada, Germany and Saudi Arabia — we help organizations prove quality, safety, information security and environmental responsibility to their customers and regulators.

Our assessments are carried out by expert evaluators and designed to add real value to your operations — not just award a certificate.

OUR MISSION

To drive sustainability and development for our clients — sharing our knowledge and experience so their management systems keep improving.

OUR VISION

A future of coexistence with our customers, built on reliability, performance and trusted, impartial certification.

HISTORY

Our Journey

2014

Founded

Established as a worldwide training, certification and inspection body.

2017–18

Regional growth

Expanded operations across Asia and the Middle East.

2019

IAR accreditation

Accredited by International Accreditation Registrar (IAR), USA — accreditation No. IAR-112 — after a rigorous two-year process, including our Virtual Audit System.

Today

Global reach

Offices in Dallas, London, Muscat and Karachi — with affiliate partners in Canada, Germany and Saudi Arabia — serving 90+ companies certified since 2014.

Accreditation & Impartiality

CCI is accredited by International Accreditation Registrar (IAR), USA — accreditation No. IAR-112 — and operates to ISO/IEC 17021-1:2015, the international standard for bodies providing management-system certification.

CCI does not provide management-system consultancy, documentation drafting or implementation support. Engaging ISOXPERT Management & IT Consultants — an independent consulting and technology firm under common ownership with CCI — any other consultant, or no consultant has no bearing on any certification decision.

Accreditation means an independent authority has verified how we audit — and every certificate is independently verifiable online.

Verify our accreditation: iar-iso.org · Verify any certificate: companycertification.com/verify

Management System Certification

Management-system certification across 20 standards:

ISO 27701 Privacy | ISO 41001 Facility Mgmt | ISO 55001 Assets

ISO 15189 Medical Labs | ISO 29001 Oil & Gas | ISO 18788 Security Ops

Product Schemes & Conformity Assessment

Product certification schemes

CE Marking / UKCA · REACH SVHC · Halal · Kosher · GDPMD · GMP · cGMP · GSP · RoHS · ISO 44001 · HACCP

Conformity assessment families

- Information security & privacy (ISO 27002–27050, 29100 series)
- IT governance & AI (ISO 90003, 38502, AI trustworthiness)
- Risk, resilience & continuity (ISO 31000, 22313, 45003)
- Sustainability & responsibility (ISO 20400, 26000)
- SOC 2 & GDPR assessments · Organic product assessment

Product marks and the schemes above are delivered as independent conformity assessment services; accredited ISO 17021 certification applies to management systems.

CE Marking, RoHS & REACH

Selling a product into the European Economic Area or Great Britain means proving it meets EU/UK product law. We take manufacturers and exporters through that route end to end.

CE Marking / UKCA

EEA & Great Britain

The declaration that a product meets every applicable EU directive — Low Voltage, EMC, Machinery, PPE, Toy Safety and more. UKCA is the Great Britain equivalent.

RoHS

Directive 2011/65/EU

Restricts 10 hazardous substances in electrical and electronic equipment — including lead, mercury, cadmium and four phthalates — to 0.1% by weight (0.01% for cadmium), evidenced to EN IEC 63000.

REACH

Regulation (EC) 1907/2006

Screening against the SVHC Candidate List, the Article 33 duty to disclose any SVHC above 0.1% w/w, SCIP database notification, and Annex XVII restriction checks.

How we support you

- Applicability review
- Harmonized standard selection
- Testing coordination
- Supplier declarations
- Technical file & DoC
- Mark affixing guidance

Delivered as conformity assessment and technical documentation services. On self-declaration routes the CE mark remains the manufacturer's own declaration; where a directive requires a Notified Body, we identify the route and the scope it must cover.

Sectors We Serve

- Manufacturing & Engineering
- Food & Beverage
- Automotive & Aerospace
- IT, Software & Telecom
- Healthcare & Medical Devices
- Textile & Apparel
- Oil, Gas & Energy
- Construction & Infrastructure
- Logistics & Trade
- Public Sector & Education

Our Certification Process

1

Application & Review

Scope agreed and a fixed certification proposal issued — managed end-to-end in our CCI-APP platform.

2

Stage 1 Audit

Documentation and readiness review against your management system.

3

Stage 2 Audit

On-site or remote assessment of implementation and effectiveness — remote audits per IAF MD 4, audit durations per IAF MD 5.

4

Independent Certification Decision

Decided by a person or panel not involved in the audit, in accordance with ISO/IEC 17021-1:2015 — then issued as your certificate, verifiable online.

5

Certificate & Surveillance

Certificate issued on a 3-year cycle, maintained by annual surveillance audits.

Implementation support is available separately from independent consultants, including ISOXPERT (an independent firm under common ownership with CCI) — engaging any consultant, or none, has no bearing on any certification decision.

Remote & Virtual Auditing

- Remote audits per IAF MD 4 · audit durations per IAF MD 5
- Our Virtual Audit System was part of our IAR accreditation assessment in 2019
- No travel, accommodation or expense charges — a single fixed fee
- Secure video conferencing with live document and records review
- Faster scheduling across our global offices — Dallas to Karachi

Training & Inspection Services

Training Services

Practical courses that build real competence — worldwide, on-site or online.

- Awareness & standard fundamentals
- Internal Auditor programs
- Implementation workshops
- HACCP & food-safety training

Inspection Services

Impartial third-party inspection that protects your orders, brand and buyers.

- Pre-shipment & during-production inspection
- Container loading supervision
- Supplier & factory audits
- Sampling, witness testing & expediting

Our Digital Platforms

Built by ISOXPERT Management & IT Consultants, an independent firm under common ownership with CCI — optional, and no advantage in certification:

Compliance360

AI-assisted compliance & governance — document control, audits, CAPA, risk and management-system automation.

QC360

AI quality-inspection platform for real-time defect detection, inspection reporting and supplier quality.

Inspect360 Suite

Field-inspection tools for third-party inspection, sampling and audit-ready certification records.

Affiliate partners in Canada, Germany and Saudi Arabia — clients certified across the Americas, Europe, the Middle East, Africa and Asia, audited on-site or remotely wherever you operate.

Why Choose CCI

- One clear certification fee — audit, decision and certificate included
- Typical timeline of 6–8 weeks from application to decision, subject to readiness
- IAR-accredited certificates (IAR-112), independently verifiable online
- Every certificate independently verifiable online
- Remote-first audits — no travel fees, faster scheduling
- Integrated multi-standard certification in one audit visit
- Software that keeps you audit-ready year-round
- Local support from four offices and three affiliate partners

Trusted By

A selection of the organizations we certify — across manufacturing, technology, insurance, research and industrial services, in Pakistan, the Gulf, Europe and the United States.

Certificates for these organizations are independently verifiable at companycertification.com/verify.

COMPANY CERTIFICATION INTERNATIONAL®

Certification · Inspection · Training · Accredited by IAR (IAR-112)

Let’s get you certified.

Tell us your standard and scope and we’ll send a clear, fixed proposal — usually within one business day.
