Countries — offices & partners

IAR-112

US accreditation

Every certificate we issue is independently verifiable online — by your clients, your regulators, and your supply chain.

Who We Are

Company Certification International (CCI) is a US-accredited certification body delivering internationally recognized management-system certification, third-party inspection, and professional training.

Operating from Dallas, London, Muscat and Karachi — with affiliate partners in Canada, Germany and Saudi Arabia — we help organizations prove quality, safety, information security and environmental responsibility to their customers and regulators.

Our assessments are carried out by expert evaluators and designed to add real value to your operations — not just award a certificate.

OUR MISSION

To drive sustainability and development for our clients — sharing our knowledge and experience so their management systems keep improving.

OUR VISION

A future of coexistence with our customers, built on reliability, performance and trusted, impartial certification.

Our Journey

Accreditation & Impartiality

CCI is accredited by the International Accreditation Registrar (IAR) — accreditation number IAR-112 — and operates to ISO/IEC 17021:2015, the international standard for bodies providing management-system certification.

Impartiality is structural: our consultancy department and our certification & auditing department are kept strictly separate, safeguarding the integrity of every certification decision.

Accreditation means an independent authority has verified how we audit — so your certificate carries weight worldwide.

Verify our accreditation: iar-iso.org · Verify any certificate: companycertification.com/verify

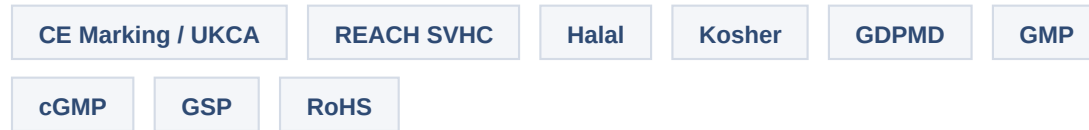

Management System Certification

Accredited ISO 17021 certification across 20 management-system standards:

Product Schemes & Conformity Assessment

Product certification schemes

Conformity assessment families

- Information security & privacy (ISO 27002–27050, 29100 series)
- IT governance & AI (ISO 90003, 38502, AI trustworthiness)
- Risk, resilience & continuity (ISO 31000, 22313, 45003)
- Sustainability & responsibility (ISO 20400, 26000)
- SOC 2 & GDPR assessments · Organic product assessment

Product marks and the schemes above are delivered as independent conformity assessment services; accredited ISO 17021 certification applies to management systems.

Sectors We Serve

- Manufacturing & Engineering
- Food & Beverage
- Automotive & Aerospace
- IT, Software & Telecom
- Healthcare & Medical Devices
- Textile & Apparel
- Oil, Gas & Energy
- Construction & Infrastructure
- Logistics & Trade
- Public Sector & Education

Our Certification Process

1

Application & Gap Analysis

Scope agreed, fixed proposal issued; a half-day online gap analysis maps where you stand — managed end-to-end in our CCI-APP platform.

2

Documentation

We can draft your documented management system for you, cutting months from the timeline.

3

Stage 1 & Stage 2 Audit

Readiness review, then assessment of implementation and effectiveness — on-site or remote (IAF MD 5).

4

Certification Decision

Independent review and issue of your accredited certificate — verifiable online.

5

Surveillance

A 3-year certification cycle maintained by annual surveillance audits.

FAST TRACK

15

 days

Certification can be achieved in as little as 15 days, depending on size and complexity.

Remote & Virtual Auditing

- Fully compliant with IAF MD 5 — the international rules for remote audit methods
- Our Virtual Audit System was part of our IAR accreditation assessment in 2019
- No travel, accommodation or expense charges — a single fixed fee
- Secure video conferencing with live document and records review
- Faster scheduling across our global offices — Dallas to Karachi

Training & Inspection Services

Training Services

Accredited courses that build real competence — worldwide, on-site or online.

- Awareness & standard fundamentals
- Internal Auditor programs
- Implementation workshops
- HACCP & food-safety training

Inspection Services

Impartial third-party inspection that protects your orders, brand and buyers.

- Pre-shipment & during-production inspection
- Container loading supervision
- Supplier & factory audits
- Sampling, witness testing & expediting

Our Digital Platforms

CCI builds the software that keeps our clients audit-ready all year round:

Compliance360

AI-assisted compliance & governance — document control, audits, CAPA, risk and management-system automation.

QC360

AI quality-inspection platform for real-time defect detection, inspection reporting and supplier quality.

Inspect360 Suite

Field-inspection tools for third-party inspection, sampling and audit-ready certification records.

Affiliate partners in Canada, Germany and Saudi Arabia — clients certified across the Americas, Europe, the Middle East, Africa and Asia, audited on-site or remotely wherever you operate.

Why Choose CCI

- One fixed, all-in price — no consultant-then-certifier double billing
- Typical zero-to-certified timeline of 6–10 weeks
- US-accredited certificates (IAR-112), recognized worldwide
- Every certificate independently verifiable online
- Remote-first audits — no travel fees, faster scheduling
- Integrated multi-standard certification in one audit visit
- Software that keeps you audit-ready year-round
- Local support across seven countries

What Our Clients Say

Our journey to ISO certification was made remarkably smooth by the dedicated team at CCI. Their cost-effective package provided everything we needed, from comprehensive documentation to professional auditing.

John D.

CEO, SmallTech Solutions

Choosing CCI for our ISO certification was a game-changer. Their package not only saved us money but also time and effort. The clear document set and excellent support made the process hassle-free.

Sarah M.

Quality Manager, ExcelCraft Manufacturing

As a growing aerospace company, ISO certification was a must. CCI provided a tailored solution that fit our budget and exceeded our expectations. The ongoing support is invaluable.

Alex H.

QA Manager, AeroTech Solutions
